2016 Scholastic Shooting Sports Foundation and NRA Competitive Shooting Sports All Scholastic Team

The Scholastic Shooting Sports Foundation (SSSF) and National Rifle Association (NRA) Competitive Shooting Sports division are proud to announce the 2016 SSSF/NRA All Scholastic Team. The All Scholastic Team recognizes student athletes involved in the Scholastic Clay Target Program (SCTP) and Scholastic Action Shooting Program (SASP) for their accomplishments in the classroom, in their communities and on the range.

Through an application process, 2016 All Scholastic Team Members have proven academic excellence by posting 3.0 or better grade point averages, shooting excellent scores in recent competition (95% in trap or skeet, 85% in sporting clays, 88% in international or 75 seconds or less for SASP) and by demonstrating outstanding community involvement.

Congratulations to the 2016 All Scholastic Team members!!

What I like most about the SCTP / SASP:

The Scholastic Clay Target Program gives me many opportunities to better myself and my shooting abilities. This program also has great coaches and mentors that help me better my abilities by giving me great advice. SCTP coaches are very involved with the shooters and have given me many shooting opportunities. Working with them has broadened my knowledge and challenged me to be a better shooter. SCTP has helped direct my shooting career path and guided me to make smart choices for now and for my future.

What I like most about the SCTP / SASP:

I have a deep love for trapshooting, but skeet and sporting clays are icing on the cake. Skeet and Sporting Clays are interesting and very fun to me. Shooting has changed how I look at life, and my success in it has given me confidence in all other areas of life. SCTP is an excellent program which combines the three major disciplines of clay target shooting. Other than the mixture of events, I also love the time I get to spend with old friends and new found friends. I can shoot until the end of my life, unlike other sports. These are the things that I like most about the Scholastic Clay Target Program.

What I like most about the SCTP / SASP:

Participating in SCTP has had a tremendous impact on my life and the person I have become over the past four years. It has become my favorite sport and has taught me a lot about gun safety, and I was introduced to a sport that I can continue after I am out of school. When I first started trap, I was very nervous and even wanted to meet with the coach during a separate practice time until I learned what I was doing. Through the sport of trap shooting I have met some of my best friends and have had some of the best coaches I could have asked for. Everyone has helped me with trapshooting and has been so very encouraging and has had so much faith in me. Some of my favorite times this past summer were at ATA events because the people competing were so welcoming and were very excited to see the high schoolers do well. I plan to compete on the club team at college and am very thankful for the opportunities I have had through trap shooting and the people I have met.

The SCTP introduced me to a sport I can enjoy for the rest of my life. I just recently started competing in ATA events at Otter Creek Gun Club, this has been a wonderful opportunity to meet many new individuals. The SCTP has truly impacted my life not only as an athlete but as a person.

What are the things that I enjoy most about the scholastic shooting program? First, I enjoy all the friendships that I have built. I have made so many friends through this program. Next, I have gained confidence and responsibility. There's a lot of responsibility in the scholastic shooting program such as making sure you have your equipment cleaned and prepared, being ready to shoot, and have your coaches be able to trust you so they can focus on the shooter not on you. Also, I love to shoot. I get to shoot and be competitive every week. Finally, I have improved on my accuracy. I know how I was when I first started I wasn't all the accurate but now I can see how much more accurate I am now compared to then. Since I'm more accurate now I'm faster. Obviously, there are a lot to love about this program.

SASP is a fun program where you not only compete as a team, but as an individual as well. This means there is no bench warmers. SASP is also great because you can compete in several types of events rifle/pistol. I enjoy being able to push myself to become better, and beat my previous times. These events are also something that you can build on and continue with as you get older. This is a fun program that is fast paced and continues to push me to get better.

What I like most about the SCTP / SASP:

The SCTP provides an organized, safe, fun environment for school aged youth to participate in a target shooting competition that may not be provided by their local school district. It provides an opportunity for kids my age who may not be into an organized school sport such as football, basketball, ect...that are more interested in the outdoors, hunting and shooting activities an opportunity to compete with others with similar interests. It teaches responsibility, respect for others, respect for guns and how they are properly used. What other sport can you set a \$10,000 specialty piece of equipment down, walk away to visit with friends come back 15 minutes later and it still be sitting there. That's the respect that is taught. You don't need to have an expensive gun either. I started out with a inexpensive single shot shotgun. You don't need to have the best of everything to trap shoot and the people don't make you feel that way either.

I love shooting. I loved shooting before I shot SASP. But shooting SASP has made me a real shooter. I have had to refine my hand position, every one of my motions and actions, how I use my trigger finger, what my sight picture must be... Every few weeks, I analyze how I shoot to figure out where and how I can improve by another second or two. I am now conscious of many aspects of the shooting motion that I had never paid attention to. But this is what makes me such a better shooter. I would never have reached this stage without shooting SASP. This is a great sport!
