

# SPP Dry-Fire Poster For Sale Now

Practice the SPP courses at home!

*"That poster made a difference. . . it really helped me figure out the timing for each stage."  
Jordon Castro, first SPP athlete to break the 40-second barrier.*

**PEDIGREE:** For training new shooters, coaches agree this poster teamed with a SIRT laser trainer is priceless.

**SIRT CONNECTION:** Coaches Robin Taylor and Rick Leach (whose teams are among the fastest in the country) make extensive use of dry

fire using this poster and SIRT laser trainers.

## TRAINING PHILOSOPHY

The root concept behind all dry-fire training is "Pavlovian conditioning."

The self-preservation instinct that make us jump when a balloon pops must be overcome to shoot well. Thankfully, what Taylor calls the 'monkey brain' is trainable.

"If you train your subconscious to believe guns go 'click' when you move the trigger, it stays calm," says Taylor. "Eventually your 'monkey brain' can experience a 'BANG' without flinching."

- ◆ Massive poster (60" by 36") lets you practice moving target-to-target.
- ◆ All targets portrayed "as seen from the shooting box."
- ◆ Get hundreds, even thousands of "dry" repetitions at home.

*Laser-train safely in a bedroom!*

## IMPROVED SAFETY

Upgrading to a laser-training pistol removes almost ALL safety concerns. Laser trainers should be treated like "real guns" for various reasons, but an inert training pistol adds a layer of safety, and actually IMPROVES the overall training experience.

## REDUCED COSTS

Ammunition costs can crush a new shooter. Get the repetitions you need without spending money for every one!

## COMPLETE LASER-MATCH SYSTEM!

Adding a webcam and "LASR" software creates a complete "Laser Match" system. With it, you can shoot the entire SPP course FOR SCORE without ever going to the range. (Details at [www.nextleveltraining.com](http://www.nextleveltraining.com)) Coaches can record Laser-Match data to look at split times, string times, and other metrics needed to tailor training to the individual student.

Already a key part of the kit used by National Champion teams, these tools bring practice "home." Get the repetitions and training time you need to succeed.

Make the Laser-Match system part of your competitive arsenal today!

### Poster Prices:

**Large Target: \$24.95**

**Half-size Target: \$9.95**
