Athletes will train in Air Pistol and Sport Pistol. They will be introduced to the physical training and mental conditioning processes of world class athletes in the pistol sports. Training will take place on the U.S.A. Shooting Olympic Training Range.

SASP Coaches and State Advisors will be immersed in a coach-training program that begins in the classroom and moves to the range for hands-on experience in how to be a more effective coach. There they will apprentice under national coaches and begin to put into practice what they have learned by coaching the SASP athletes.
